**Online Education**

1. Does all programs/courses were completed on time.

Yes

2. Measures taken to complete the syllabus of courses and programs.

Measures taken to complete the syllabus of courses and programs  
 Heads of the Department create a detailed time table that effectively allocates time for academic and co-curricular purposes such as theory, practical, tutorial, sports, extra-curricular activities ensuring a balance between the various types of engagement a student is expected to engage in. Beginning with an entry-point assessment of the student's aptitude and expectations relating to the course; and proceeding according to a set of teaching plans based on an academic calendar detailed enough to cover the available timeframe while flexible enough to allow changes, the departments strive for effective curriculum delivery through a combination of time-tested and innovative methods. The teaching plans include a comprehensive distribution of the syllabus across all of a department's faculties. The apportioning is done democratically in departmental meetings, with discussion and deliberation among faculty members. Faculty members go to great lengths to ensure that the curriculum is completed on time. The main evaluating mechanisms are tutorials/projects, class quizzes, and internal assessments, although students are invited to contact faculty outside of class hours for doubt-clearing and curricular discussions. After internal examinations, extra time is spent to remedial lessons in order to improve students' readiness for University examinations. IQAC meets on a regular basis to assess the development of teaching and learning, among other things.  
 Faced with COVID-19, the education system's shared vision acknowledged that throughout the pandemic, instructors and students are motivated to modify online teaching-learning platforms to meet contemporary educational needs. Everyone, whether professors or students, was friendly and adept in using social media apps such as WhatsApp, Facebook, Twitter, and Instagram, which facilitated the use of online educational platforms such as ZOOM, Cisco WebEx, Google Meet, and others as an indication of positive learning transfer. Later University made an MoU with Microsoft teams and now the Microsoft Teams educational platform helps in seamless monitoring of online teaching-learning modes.  
 The majority of stakeholders had smartphones, with only a small percentage having computers, which are required resources for implementing online teaching-learning. Under the program, "Amma Vodi", our Hon'ble Chief Minister Y.S. Jagan Mohan Reddy garu is giving provision of 15000/- rupees for each student to purchase a laptop. Several online sessions with question and answer sessions were held by the University to familiarise faculty with online tools, techniques, processes, and platforms. During the lockdown, instructors also participated in technology-based education programmes hosted by several universities in partnership with the UGC. Teachers were unable to perform online practical sessions during the lockdown time, because it required methodical demonstration of the entire process in front of the pupils. As a result, in the second half of the semester, teaching was switched to a blended method of online/offline for 1/3 of the campus students, to complete practicals, examinations, projects, and other tasks in the offline mode strictly following the COVID-19 SOP.  
 Undauntedly, Dr B.R. Ambedkar University, Srikakulam ensured the availability of digital academic experience for students to bridge the disparities originated in the education system before and after COVID-19 catastrophe which is also inevitably necessitated for uninterrupted learning.

3. The period of delay in completion of syllabus (in months).

0

4. The period of delay in conducting exams (in months).

0

**Portal Name**

**No. of students offered online courses which have credit transferred to transcript**
